

# 3-terminal filters

For general signal line

**MEM** series

# MEM1005PP type

**MEM1005PP** 

1005[0402 inch]\*

\* Dimensions code JIS[EIA]

# REMINDERS FOR USING THESE PRODUCTS

Before using these products, be sure to request the delivery specifications.

## SAFETY REMINDERS

Please pay sufficient attention to the warnings for safe designing when using this product.

| ⚠ REMINDERS   |
|---|
| The storage period is less than 12 months. Be sure to follow the storage conditions (temperature: 5 to 40°C, humidity: 10 to 75% RH o less).  |
| If the storage period elapses, the soldering of the terminal electrodes may deteriorate.  |
| On not use or store in locations where there are conditions such as gas corrosion (salt, acid, alkali, etc.).   |
| <ul> <li>Before soldering, be sure to preheat components.</li> <li>The preheating temperature should be set so that the temperature difference between the solder temperature and chip temperature does not exceed 150°C.</li> </ul>  |
| <ul> <li>Soldering corrections after mounting should be within the range of the conditions determined in the specifications.</li> <li>If overheated, a short circuit, performance deterioration, or lifespan shortening may occur.</li> </ul>   |
| When embedding a printed circuit board where a chip is mounted to a set, be sure that residual stress is not given to the chip due to<br>the overall distortion of the printed circuit board and partial distortion such as at screw tightening portions.   |
| <ul> <li>Self heating (temperature increase) occurs when the power is turned ON, so the tolerance should be sufficient for the set therma<br/>design.</li> </ul>  |
| <ul> <li>Carefully lay out the coil for the circuit board design of the non-magnetic shield type.</li> <li>A malfunction may occur due to magnetic interference.</li> </ul>   |
| Use a wrist band to discharge static electricity in your body through the grounding wire.   |
| On not expose the products to magnets or magnetic fields.   |
| On not use for a purpose outside of the contents regulated in the delivery specifications.  |
| The products listed on this catalog are intended for use in general electronic equipment (AV equipment, telecommunications equipment, home appliances, amusement equipment, computer equipment, personal equipment, office equipment, measurement equipment, industrial robots) under a normal operation and use condition. |
| The products are not designed or warranted to meet the requirements of the applications listed below, whose performance and/or qual   |

- (1) Aerospace/aviation equipment
- $\hbox{(2) Transportation equipment (cars, electric trains, ships, etc.)}\\$
- (3) Medical equipment

person or property.

(4) Power-generation control equipment

set forth in the each catalog, please contact us.

- (5) Atomic energy-related equipment
- (6) Seabed equipment
- (7) Transportation control equipment

- (8) Public information-processing equipment
- (9) Military equipment
- (10) Electric heating apparatus, burning equipment
- (11) Disaster prevention/crime prevention equipment
- (12) Safety equipment
- (13) Other applications that are not considered general-purpose applications

When designing your equipment even for general-purpose applications, you are kindly requested to take into consideration securing protection circuit/device or providing backup circuits in your equipment.

ity require a more stringent level of safety or reliability, or whose failure, malfunction or trouble could cause serious damage to society,

If you intend to use the products in the applications listed below or if you have special requirements exceeding the range or conditions

# 3-terminal filters

# For general signal line

Product compatible with RoHS directive
Halogen-free
Compatible with lead-free solders

# Overview of MEM1005PP type

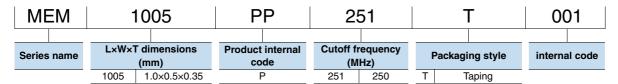

#### **FEATURES**

- Multilayer chip EMC filter.
- O Monolithic structure makes it highly reliable.
- O Has sharp attenuation characteristics with excellent EMC suppression.
- $\bigcirc$   $\pi$ -type circuit is used.
- Compact with a low profile design.
- OPP type products are the new standard type products that have both large current and low resistance.

#### APPLICATION

Smart phones, tablet terminals, disclosed is a wireless communication device for base stations, etc. Note PC, various modules such as camera modules. DSCs, video games, portable memory audio devices, navigation systems, PNDs, WLANs, SSDs

#### PART NUMBER CONSTRUCTION

#### ■ OPERATING TEMPERATURE RANGE, PACKAGE QUANTITY, PRODUCT WEIGHT

|           | Temperature ranges               |                                 | Package quantity | Individual weight |
|-----------|----------------------------------|---------------------------------|------------------|-------------------|
| Туре      | Operating<br>temperature<br>(°C) | Storage<br>temperature*<br>(°C) | (pieces/reel)    | (mg)              |
| MEM1005PP | −55 to +125°C                    | −55 to +125°C                   | 10,000           | 0.6               |

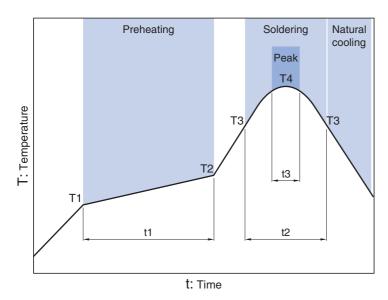

<sup>\*</sup> The storage temperature range is for after the assembly.

RoHS Directive Compliant Product: See the following for more details. https://product.tdk.com/info/en/environment/rohs/index.html

O Halogen-free: indicates that CI content is less than 900ppm, Br content is less than 900ppm, and that the total CI and Br content is less than 1500ppm.

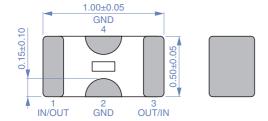

### ■ RECOMMENDED REFLOW PROFILE

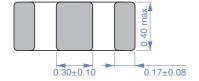

Preheating Soldering Peak Temp. Temp. Temp. Time Time Time T1 T2 t3 T3 **T4** 150°C 180°C 60 to 120s 230°C 30 to 60s 250 to 260°C 10s max.
