

MICRO SWITCH™ GKE Series Dual-Entry Safety Switch Product Nomenclature

For example, a **GKEA01L** part number would define a GKE Series dual-entry, key-operated safety switch with a key opening at the left and top, 1/2 in NPT conduit, and 1NC/1NO snap-action circuitry.

GKE	A	01	L
Switch Type	Conduit Type	Switch Type	Head Orientation
GKE Series Dual-Entry Key-Operated Safety Switch	A 1/2 NPT	01 1NC/1NO snap action	L Opening to front and top
	C 20 mm	03 1NC/1NO, BBM slow acting	M Opening to right and top
		06 2NC slow acting	N Opening to back and top
			P Opening to left and top

NOTE: not all combinations of model code are available.
Please contact your Honeywell provider/representative for assistance.

* A key actuator (ordered separately) is required for each switch.

*Keys Listing	Key style
GKZ51M	Straight
GKZ52M	90°
