| SENSITIVITY                      | -160dBm                                                                            |
| PACKAGING                        | Cut Tape (CT)                                                                      |
| PACKAGE / CASE                   | 43-TFLGA                                                                           |
| OTHER NAMES                      | 672-1055-1                                                                         |
| OPERATING TEMPERATURE            | -40°C ~ 85°C                                                                       |
| MOISTURE SENSITIVITY LEVEL (MSL) | 3 (168 Hours)                                                                      |
| MODULATION OR PROTOCOL           | BeiDou, GLONASS, GNSS, GPS                                                         |
| MEMORY SIZE                      | -                                                                                  |
| FREQUENCY                        | 1.561GHz, 1.575GHz, 1.602GHz                                                       |
| FEATURES                         | -                                                                                  |
| DETAILED DESCRIPTION             | EVA-M8 RF Receiver BeiDou, GLONASS, GNSS, GPS 1.561GHz, 1.575GHz, 1.602GHz -160dBm |
| DATA RATE (MAX)                  | -                                                                                  |
| DATA INTERFACE                   | I²C, SPI, UART, USB                                                                |
| CURRENT - RECEIVING              | 29mA                                                                               |
| APPLICATIONS                     | General Purpose                                                                    |
| ANTENNA CONNECTOR                | -                                                                                  |
